Growing Bigger Hearts™

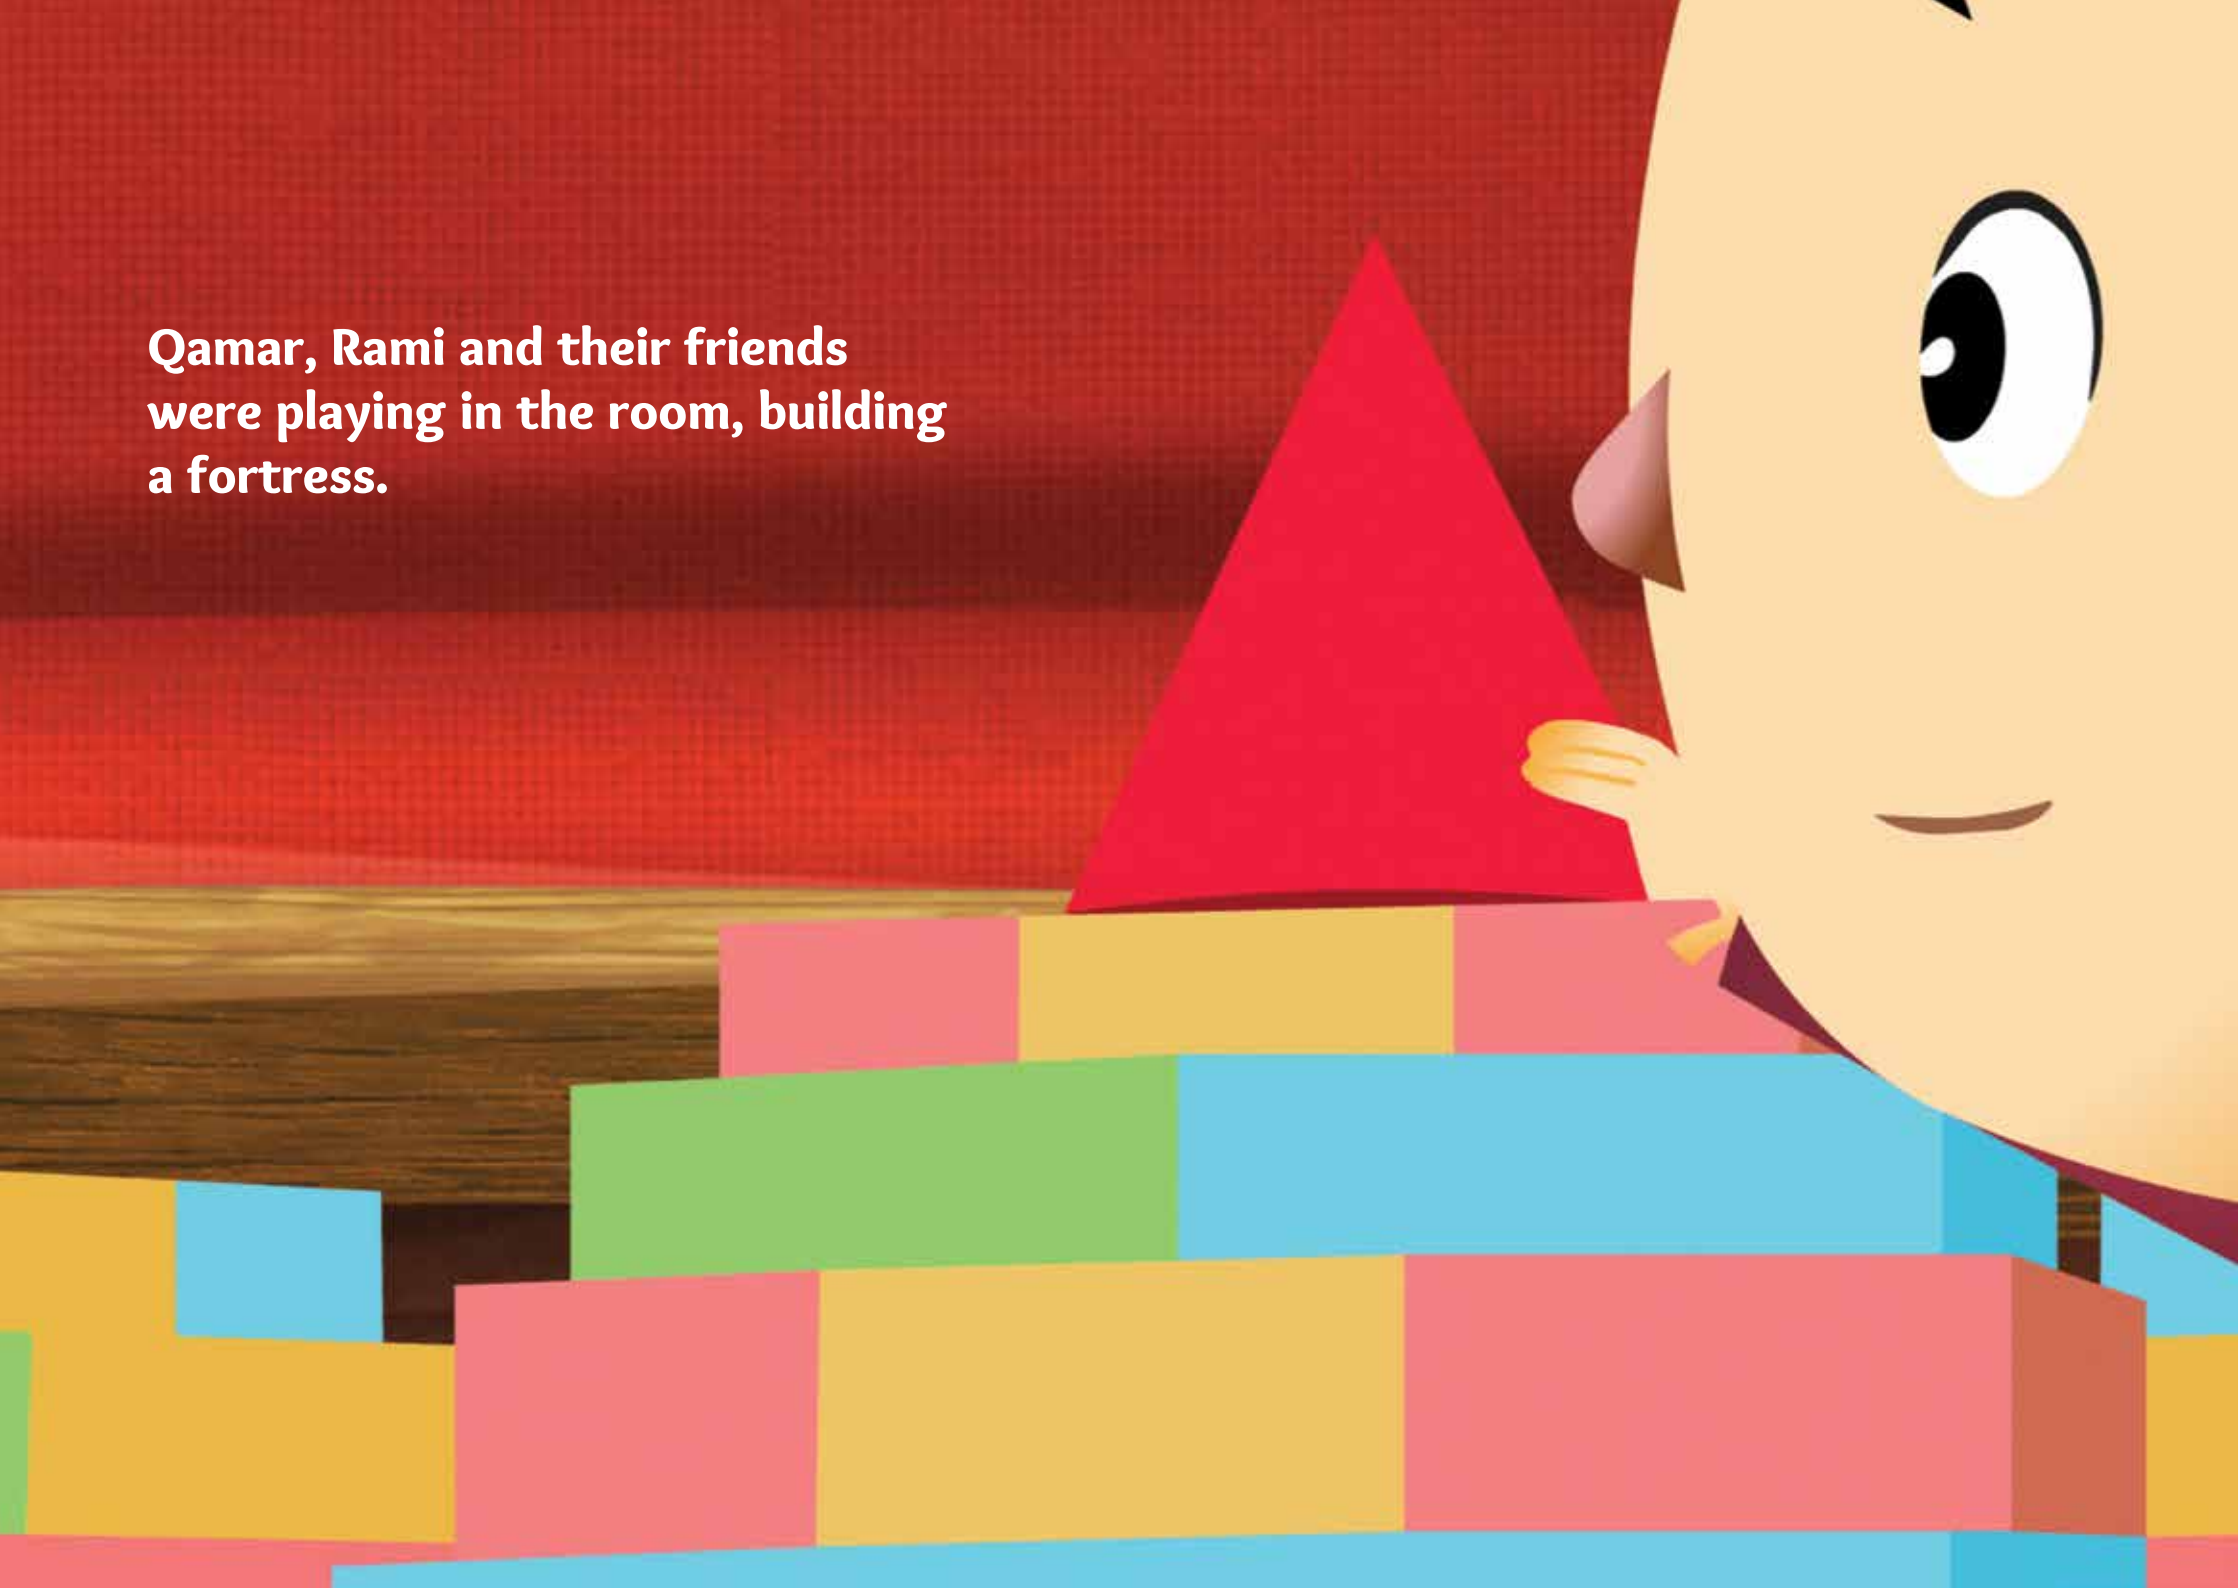

Oamar & the magical garden

**Qamar, Rami and their friends
were playing in the room, building
a fortress.**

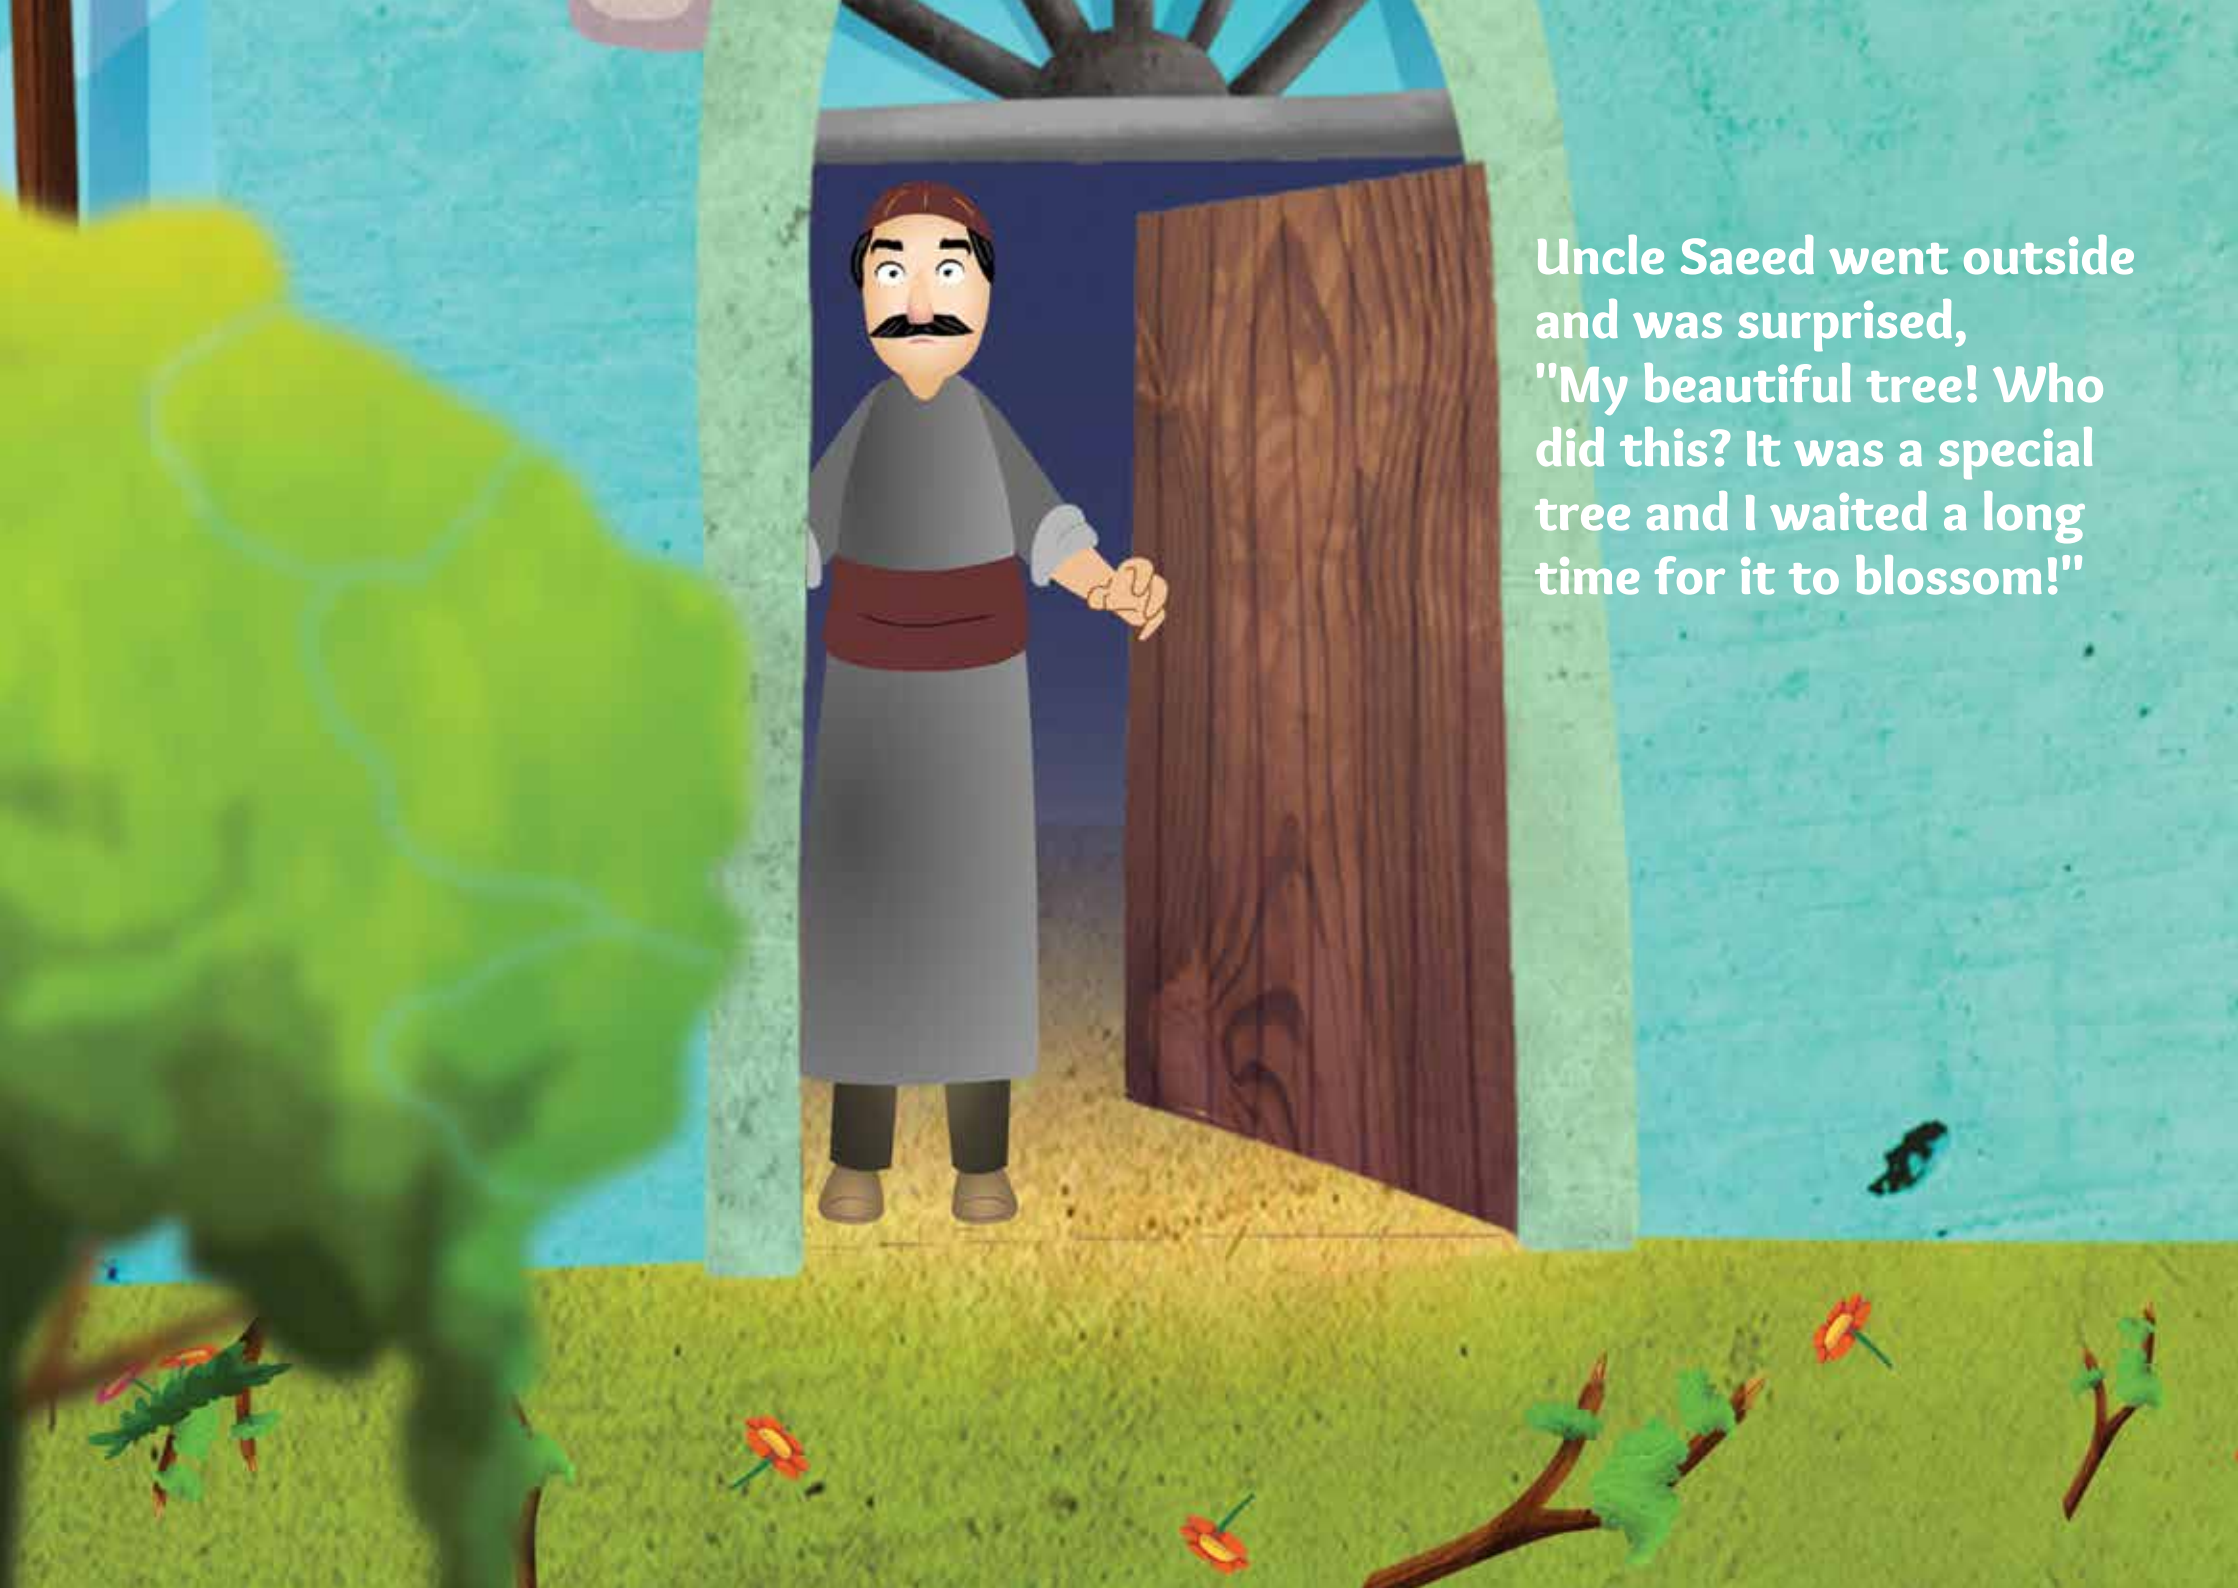

But they soon got bored after finishing it, so Qamar suggested that they play ball outside in the garden.

Everyone got excited and they went outside. Qamar was running, Rami was kicking the ball and Majid was the goalkeeper.

They were all having fun, until Majid kicked the ball so far that it fell into Uncle Saeed's garden, ruining his beautiful tree!

Uncle Saeed went outside and was surprised, "My beautiful tree! Who did this? It was a special tree and I waited a long time for it to blossom!"

Qamar heard Uncle Saeed ask about what happened and saw the other kids hesitating...

She approached him and said,
"Uncle Saeed, I'm sorry, playing ball
was my idea."
And she immediately started fixing
the garden.

The kids felt embarrassed and apologized to Uncle Saeed, then they all started to work too.

Qamar replanted Rami watered, Majid cleaned, and their friends tidied.

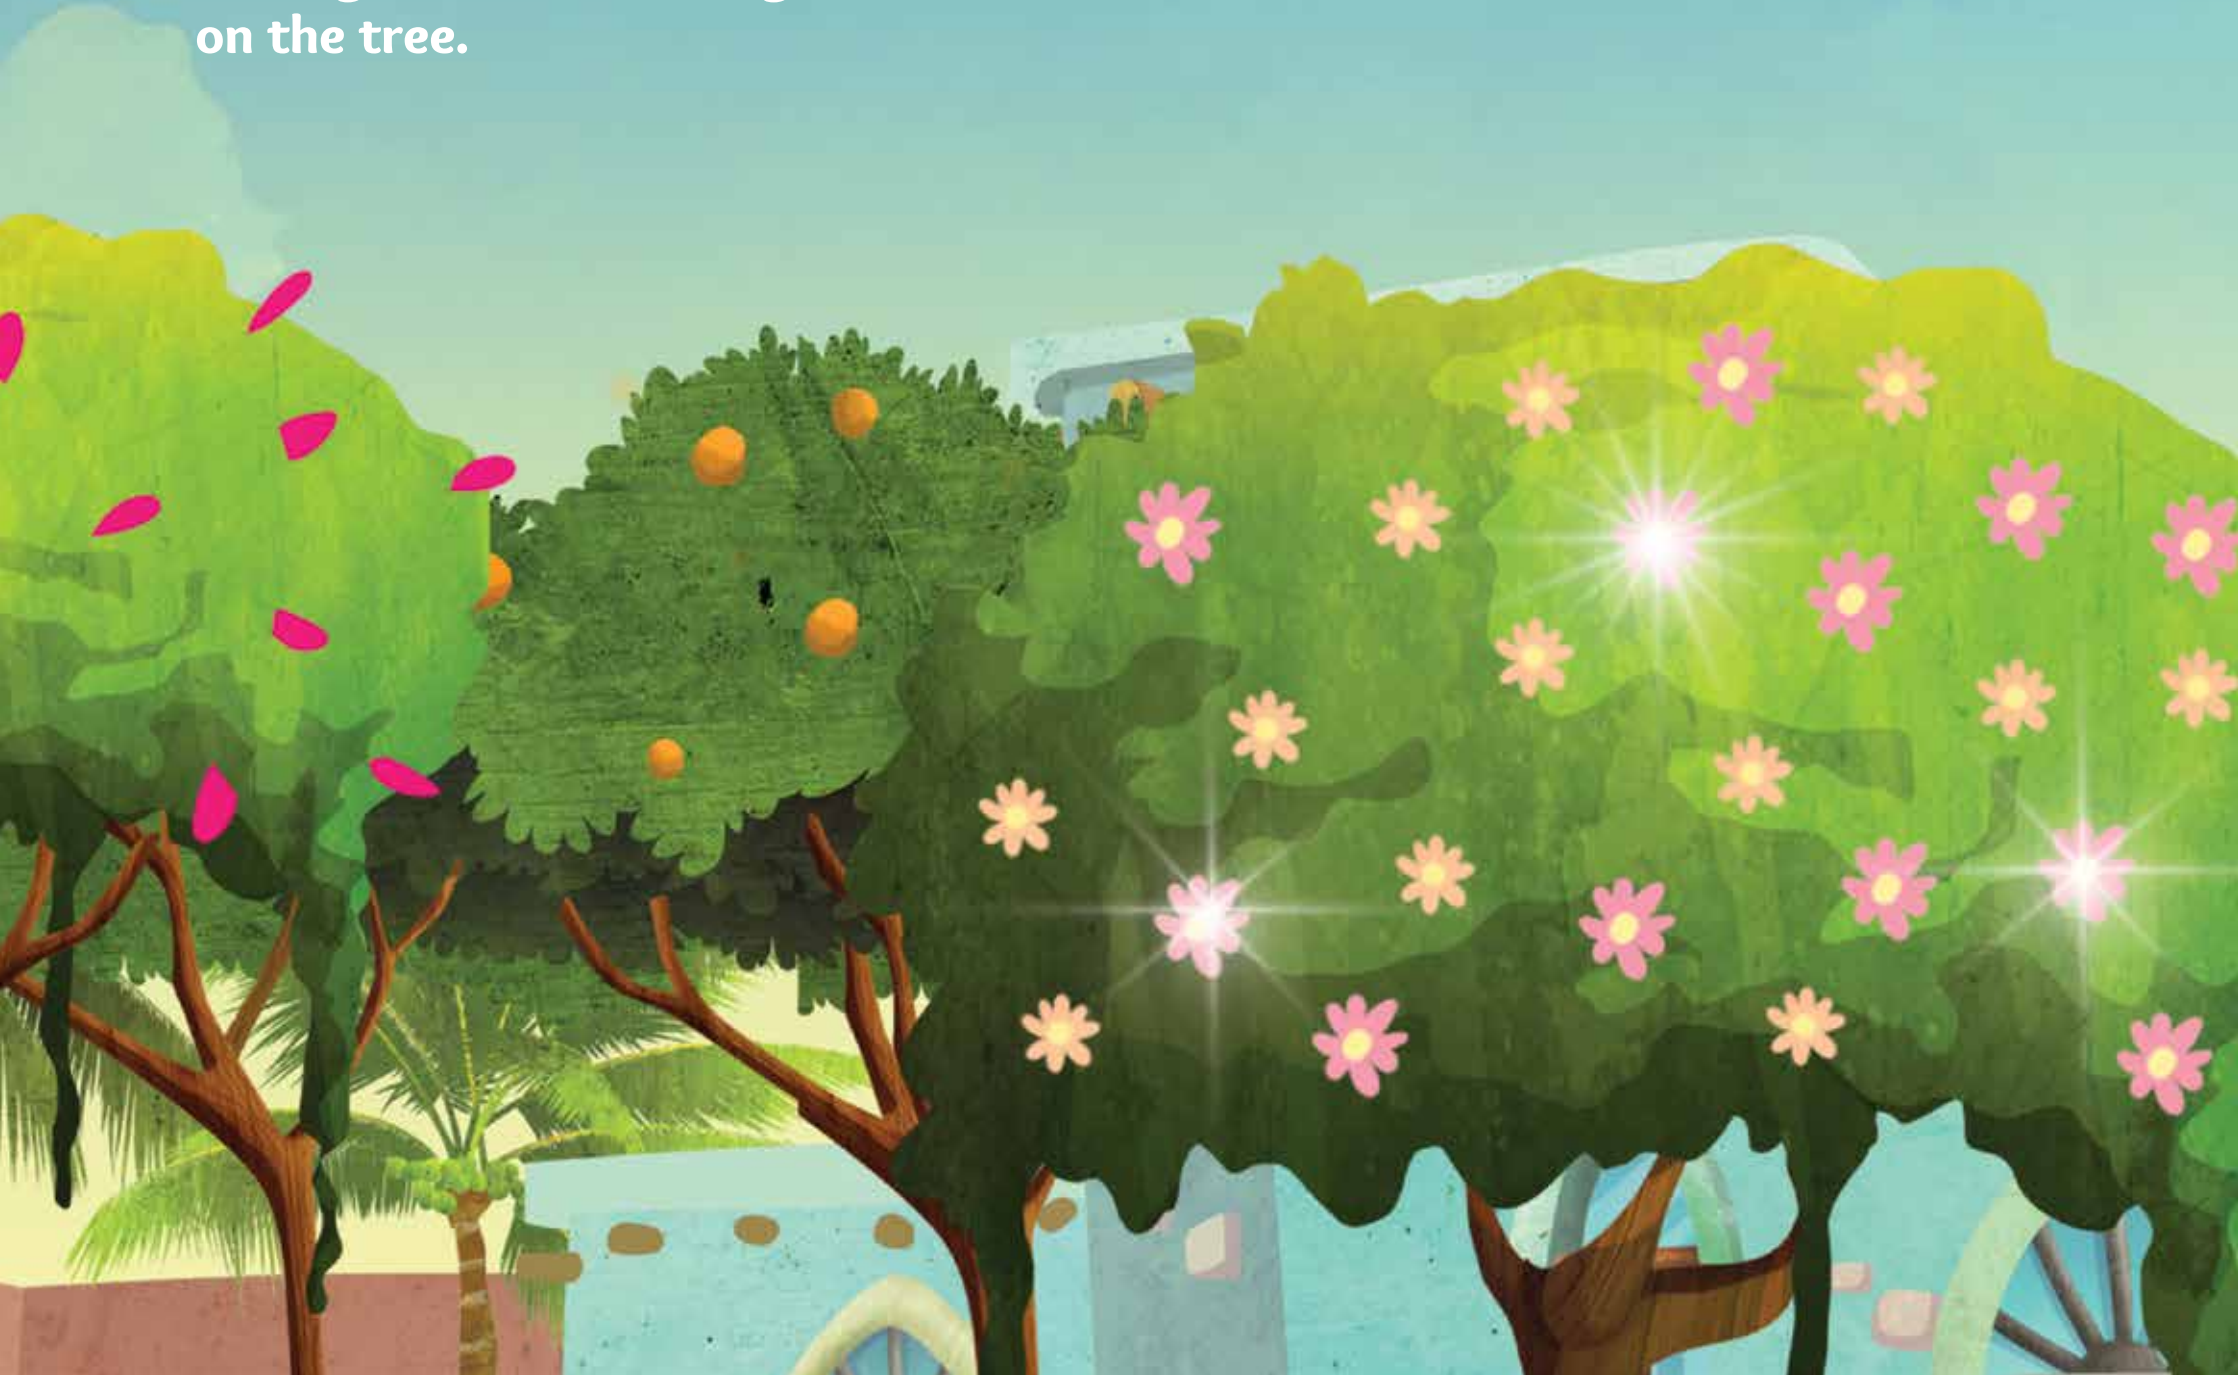

After several hours, the garden was back as it was before.

The kids were happy with their work and then something magical started happening...

Beautiful flowers shaped like shining stars started to grow on the tree.

One star-shaped flower for each
kid, thanking them for their sense
of responsibility!

The End
